Circumstellar Matter

By Appenzeller, Immo / Jordan, C.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the 122nd Symposium of the International Astronomical Union Held in Heidelberg, F.R.G., June 23-27, 1986 | Proceedings of the 122nd Symposium of the International Astronomical Union, Heidelberg, Germany, June 23-27, 1986 | The objective of this meeting was to bring together colleagues from different branches of observational astronomy and theoretical astrophysics to discuss and analyse the rapid progress in our knowledge and understanding of the matter surrounding stars, streaming off stellar surfaces, or falling onto stars. The meeting was sponsored by IAU Commissions 36 (Theory of Stellar Atmospheres), 29 (Stellar Spectra), and 34 (Interstellar Matter). There were two special reasons for organizing this meeting at Heidelberg in 1986: During this year the University of Heidelberg celebrated its 600th anniversary and the IAU symposium joined the many scientific events accompanying this celebration. Secondly, the year 1986 also marked the conclusion of a special cooperative research project ("Sonderforschungsbereich") in astrophysics at Heidelberg, a major part of which had been devoted to the physics of circumstellar matter. The main topics discussed at this meeting were: (1) circumstellar matter, bipolar flows, and jets from young stars and protostars; (2) circumstellar...

Reviews

This book will never be straightforward to start on reading through but quite enjoyable to learn. Better than never, though I am quite late in starting reading this one. Your lifestyle span will probably be converted once you complete reading this publication.

-- **Dr. Kadin Hane DVM**

This publication may be worth purchasing. It was actually written quite flawlessly and valuable. I am just happy to tell you that this is actually the very best book I actually have studied inside my personal life and can be the best ebook for actually.

-- **Frank Nienow**
