OFFICE OF INSPECTOR GENERAL AUDIT REPORT: ACTIONS NEEDED TO STRENGTHEN THE FEDERAL HIGHWAY ADMINISTRATION S NATIONAL REVIEW TEAMS: PROJECT ID: MH-2011-027 (PAPERBACK)

Our objective was to evaluate the effectiveness of the NRTs in conducting national oversight and mitigating risks posed by the rapid infusion of American Recovery and Reinvestment Act dollars. We found that NRTs were conducting thorough reviews in a consistent manner-yielding useful data. However, we identified vulnerabilities that demonstrated the need for increased management oversight, such as teams not including all NRT observations in summary reports that FHWA Division Offices use to identify instances where corrective actions are needed, and not properly recording corrective actions in FHWA s Recovery Act Database System (RADS). Without comprehensive summary reports and target action dates, FHWA cannot be certain that all corrective actions were taken. In addition, FHWA had not defined the critical role of its three Directors of Field Services in monitoring corrective action plans and resolving issues that could impact their prompt and effective implementation. We also found that FHWA had conducted limited analysis of NRT results to identify national trends and emergent risks or assess the effectiveness of ARRA risk response strategies.
