By Richard Thomas Lowe

Theclassics.us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1868 edition. Excerpt: .very small. Stylopod large conic. Styles very short erect. Gen. and partial inv. several ovate or ovate-lanceolate spreading or reflexed. Fr. large oblong-oval very pale brown with 3 sharp prominent entire dorsal ribs and plain flat interstices, apt to be infested with some larva that eat out the seed which when perfected is roundish oval and loose in the thick spongy or corky coat of the fr. The P de S. Lourenco occasional state of the pi. with excessively thick hard and brittle less glaucous broader and shorter elliptic-oval or oblong lfts. only 2 or 3 times as long as broad, and often combined into a single broadly obtusely 3-fid lft. (C. latifolium Buch; C. maritimum /3. Canariense (Cav.) DC, 11. cc.) is too accidental and even transient a form or young depauperated state to be properly reckoned a var., occurring only in arid...
