Pursuant to a congressional request, GAO reviewed the Occupational Safety and Health Administrations (OSHA) monitoring of federal agencies safety and health programs and implementation of the Hazard Communication Standard. GAO found that OSHA: (1) monitors federal agencies safety and health programs differently from the approach envisioned in its regulations; (2) is not conducting required annual evaluations of the 15 agencies identified as the largest or most hazardous agencies, and it rarely evaluates the 95 or so other agencies, even when their work-related injury and illness rates are high; (3) inspects federal work places but makes limited use of inspection results in assessing agencies programs; (4) does not require agencies to provide evidence of actions to correct hazardous conditions, inspect agencies for compliance with program requirements, or use inspections to identify and correct programmatic and agency actions to correct identified hazards; and (5) is not required to and does not monitor how well federal agencies implement the Hazard Communication Standard. This item ships from La Vergne, TN. Paperback.
