The Dark side of enlightenment highlights the search, application and the effect of knowledge in new age, spiritual and other fringe areas in our daily lives. It deals with the social and cultural issues in the modern world as we can move around freely between borders and experience international media in every corner of the world. It deals with the individuals internal strife created through the bias of media and the adoption of the dominating materialistic world religion at all costs. It raises the moral question on the agenda and collateral both of international warfare, world politics and personal cut throat careers as the author tries to find a middle ground between physical and spiritual growth and survival in a modern lifestyle while applying age old values. The dilemma is given context by means of the authors autobiography in order to highlight how subtle change creates perception which could be both a blessing and a curse. Today we live in future times where our private lives are increasingly public and the last freedom that the author resorts to...
